ORIGINAL STONE

The inspiration for Tuscany Fior di Bosco can be traced back to the heart of Tuscany, Italy, a transition zone between the plains and the Alps. The rich marble strata have broken free from their original flatness in the dynamic game of plate tectonics, growing into dynamic curves with wrinkled arcs and fractured textures. Each undulation bears the traces of the earth's pulse.

Porcelain. Elegance. Sustainability

Casaferra designers fully appreciate the preciousness of this natural beauty. They meticulously study the grain, light and dark variations, and detailed features of each piece of raw marble. Using a molded matte finish, the tiles retain the delicate texture of naturally polished raw marble – the warmth and contours of the stone surface are palpable upon touch. Tuscany Fior di Bosco, meaning "Forest Flower," symbolizes the fusion of nature and art. Incorporating vibrant natural elements such as olive trees, rocks, and rivers, the space strikes a balance between modern and retro, embodying the tranquility and poetry of the Tuscan forest.
