ONIX Onice

ONICE
MARBLE STONE

ONICE
MARBLE STONE

Onice trae ispirazione dalla preziosa giada proveniente dall'Iran e dal Pakistan. A causa della frequente collisione e subduzione delle placche geologiche, la cristallizzazione e la riorganizzazione di diversi minerali si intrecciano e si fondono, creando l'intricata struttura cristallina all'interno della giada Onice. Grazie alle sue preziose qualità e alle profonde connotazioni culturali, questa giada veniva spesso utilizzata per realizzare accessori e opere d'arte aristocratiche nell'antichità.

Casaferra[®]
Porcelain. Elegance. Sustainability

Onice is inspired by precious jade from Iran and Pakistan. Due to the frequent collision and subduction of geological plates, the crystallization and reorganization of different minerals are intertwined and fused, creating the intricate crystal structure inside the Onice jade. Due to its precious qualities and profound cultural connotations, this jade was often used to make aristocratic accessories and artworks in ancient times.

The light reflection on the surface is more uniform, making the texture more vivid under the background of light and shadow, showing the luster and transparency of natural jade, and creating a warm and delicate spatial atmosphere.

After weathering, erosion and water scouring by nature, impurities on the surface are removed and the smooth and delicate texture inside is gradually revealed.
