Porcelain. Elegance. Sustainability

**LMP MONTE CLEMO**

**MONTE CLEMO**  
TERRAZZO

**MONTE CLEMO**  
TERRAZZO

Ceppo di Gre of the Monte Clemo series is a porous, naturally occurring, high-quality, bluish-gray dolomitic breccia, held together by a fine-grained matrix. It consists of large and smaller, vibrant bluish-gray stones that contrast sharply with lighter and warmer grays, ranging from light to dark shades. The clastic fragments are varied in shape and size and irregularly distributed.

**Casaferra**<sup>®</sup>  
Porcelain. Elegance. Sustainability

Inspired by natural limestone, every inch of Casaferra tells a story of the history and charm of nature, conveying the transcendent beauty of nature. Its colors are gentle and understated, elegant without being ostentatious, allowing natural forms to flow naturally. It brings a profound natural atmosphere to the interior and exterior of contemporary architecture, making quality living independent of the size of the space.
